The first thing that came to my mind when watching this, was how badly i wanted to take some form of sharp object to that stupid little swirl on his forehead. >_>

if you need a thing to drool and grope over, next time you take a shower, look in the mirror. You'll be surprised what you can find when u take a first time look at your own naked body... (lol)

Wow, this Anime is GREAT! =] If you're a bit weary of trying new anime, don't be! So far this anime has a really interesting plot & is sorta funny. And FINALLY a main character that's open for his love on boobs!

I wish I knew a little more about Japanese history so I could follow along properly...

The single thing that bugged me most was that offhand comment about potatoes. This is Japan in 1561. Potatoes are a New World crop. The likelihood that anyone from that time routinely ate them is next to zero. Historical accuracy RAGE!!

... I thought that the appearance of Soccer goals would be a more obvious sign of anachronism stew. Part of me is also historical accuracy raging, but another is repeating the MST3K Mantra ("It's just a show; I should really just relax.")

Well, Latin American missionaries were in Japan since at least the 1300s I think.....maybe they could've brought potatoes.

Probably a lot, since most of them are all about changing the shit out of details that are inconvenient.

Why is it that just about every male character in this season has to be either a whiny coward or an impulsive jerk? Maybe it's the style this season.

I think this anime will be very excellent if it keeps course with historical events... and having the main character play Toyotomi Hideoyosshi will hopefully keep that course.

A gender reversal of famous figures from the Sengoku period. WHY DOES THIS KEEP HAPPENING?!

Interesting. The plot to this actually plays out like some weird, disjointed, alternate reality strategy RPG of some sort. More entertaining than I thought it would be, though.
